Raíces

Purpose

Raíces is a real estate matching platform.

It is NOT a traditional property search portal.

Users:

- Publish properties.
- Create search profiles.
- Receive automatic matches.

Core value proposition:

"Don't search for properties. Define what you need and Raíces finds matches for you."

DESIGN PHILOSOPHY

The application should feel:

- Modern
- Clean
- Professional
- Minimalist
- Trustworthy

Visual inspirations:

- Airbnb
- Linear
- Notion
- Stripe Dashboard

Avoid:

- Cluttered layouts
 - Heavy gradients
 - Excessive cards
 - Marketplace-style designs

"What action or information does this provide to the user?"

If it doesn't add value:

Remove it.

HOMESCREEN DESIGN

Structure

Notification Icon

Greeting Section:

Hello {UserName} 🙌

Welcome to Raíces

New Matches Section

Large Highlight Card

Example:

5

New Matches

This is the most important card on the screen.

Summary Section

Four summary cards:

Active Searches Active Properties New Matches Total Matches

Displayed in a 2x2 grid.

Smart Section

This section changes dynamically.

CASE A

User owns at least one property.

Display:

Requires Attention

Property with the lowest number of matches.

Example:

Apartment - Cedritos

0 matches in the last 30 days

Consider updating the price or description.

Button:

View Property

CASE B

User has no properties.

Display a contextual tip.

Example:

Publish your first property to start receiving automatic matches.

Or:

Create more searches to increase your opportunities.

DO NOT INCLUDE IN HOME

No search bar.

No activity feed.

No promotional banners.

No generic featured properties.

No unnecessary carousels.

HOME GOAL

The user must answer these questions in less than 3 seconds:

1. Do I have new matches?
2. How many searches and properties do I have?
3. Is there something that requires my attention?

If these questions are answered, the Home screen is successful.
